ABOUT US

We are teachers, parents, religious and business leaders -- most importantly we are all Arizonans. We care desperately about the future of this state -- from a strong economy to creating the best quality of life. Right now, too many of our children are living in poverty, wallowing in inadequate child care, unable to read and eventually dropping out of school. For decades our state has ranked among the worst states in the nation on indicators of child well-being. Those are not statistics that define us, our families or our neighborhoods and we know that they don't define you either.
